BASIL BABU

Data Analyst

basilbabu1410@gmail.com | 07 67 39 36 97 | Paris, France | Linkedin | Portfolio

PROFESSIONAL SUMMARY

Data Analyst with **3 years** of professional **experience** working with large structured databases and delivering data driven insights in enterprise environments, complemented by an MSc in Computer Science & Data Science from ESILV Paris. Skilled across the full data pipeline from **data collection, cleaning, and processing** through to **visualisation, dashboard design**, and **stakeholder communication**. Experienced in **SQL, Python, R, Power BI,** and **APIs**, with a strong foundation in machine learning and statistics. Comfortable working cross functionally in fast paced, international environments and translating complex data into clear business recommendations.

TECHNICAL SKILLS

- **Programming Languages** : Python, R, PHP, Java
- **Data Analysis** : Pandas, NumPy, Matplotlib, Seaborn, Scikit learn, Jupyter Notebook, **Power BI** (familiar)
- **Deep Learning** : TensorFlow, CNN (Image Classification), PyTorch, Keras, XGBoost, LightGBM
- **Databases** : MySQL, PostgreSQL, SQL (3 years professional use)
- **Data Concepts** : Data Cleaning, EDA, Regression Modeling, Basic ETL, Hypothesis Testing, Statistical Analysis, KPI
- **Tools** : Git, GitHub, Bitbucket, Jira, APIs (OAuth, API Key, HTTP Basic Auth)

PROFESSIONAL EXPERIENCE

Back End PHP Developer and Support Engineer
Maxwell Geosystems India Pvt Ltd, Kochi, Kerala, India ***Dec 2021 – Sep 2024***

- Owned and queried large structured **MySQL databases** supporting real time decision making for international infrastructure projects ensuring **data accuracy** and **reliability** across Malaysia, Singapore, and the UK operations.
- Identified and resolved data inconsistencies by analysing database records and system logs, ensuring **data accuracy** across the platform.
- Identified and optimised inefficient SQL workflows end-to-end, delivering a 30% improvement in data retrieval performance directly improving platform reliability for international clients.
- Maintained technical **documentation** of data processes, system behaviour, and reporting standards across multiple release cycles.
- Collaborated in **Agile** (Scrum) sprints across major **international projects** — KVMRT2 (Malaysia), DTSS2 (Singapore), and Thames Tideway (UK).

PROJECTS

- Microorganism Image Classification Using Convolutional Neural Networks **(CNN) (GitHub)**
- **Exploratory Data Analysis** and **Regression Modeling** on Motorcycle Technical Specifications (1970–2022) (**GitHub**)

EDUCATION

- **MSc Computer Science and Data Science (Master 2)** ESILV Engineering School - Paris, France ***Oct 2024 – Feb 2026***
- **Master of Computer Applications (MCA)** Union Christian College Aluva - Kerala, India ***Oct 2019 – Feb 2022***

LANGUAGE

- **English -** Professional Working Proficiency **French -** Elementary (Actively Developing)

SOFT SKILLS

- Analytical Thinking, Problem Solving, Data Storytelling, Attention to Detail, Clear Communication, Autonomous
